ABOUT US?

The Foundation University, Faculty of Management Sciences (FMS) provides state-of-the art business education in Pakistan. The commitment of the faculty and the staff, and above all adherence to standards of academic excellence, have contributed immensely to the faculty's enviable reputation. Graduates of our faculty are placed in leading multinational corporations, national/international corporate sector, government institutions, academia and various well reputed conglomerates. At FMS, strong focus is laid on academic excellence by ensuring Outcome Based Education. Students are not only given cognitive understanding of the subject area they learn; rather specific focus is laid on the development of their overall skills.

VISION

To prepare youth in Pakistan for the upcoming business challenges!

MISSION

- To provide an opportunity to students to understand and comprehend 'Management' (as a knowledge area) and sub disciplines
- To ensure that students can apply the acquired knowledge to real world situations through better skills building
- To ensure that students develop analytical, synthesis and evaluation skills for further studies, research and professional purpose
